THE GLEANINGS FROM LETTERS OF MOTHER

Hope you are finding time and opportunity for systematic sadhana in the midst of other occupations. Mastery over self comes through power of intense aspiration and adherence to spiritual practices. It will be futile to lean on a miraculous descent of grace if you ignore these two aspects. For Mother's children, initiated into the way of higher life and blessed with the gift of love for Mother, there is no need for much struggles in sadhana. Even rigorous penance and meditation become sweet when love is there to support them. Devout meditation becomes spontaneous without even the help of austere practices of mind-control, provided, one has got love for the Divine. It is this power of love for Mother that is going to play a vital role in moulding the lives of Mother's children.

As the all-pervasive reality, the Divine Mother is the inspiring energy, the all-supporting divine self of all. But, should you not, Her beloved child, know and experience the ecstasy of this mystic insight and divine relationship? That is why Mother is insisting upon meditation. Dive deep into the heart, where the Mother is seated on the throne of purity. Unless the children possess and experience the Brahmic Consciousness and divine bliss of Atman, there will be no satisfaction for Mother. The moment you look within, you will experience the contact with the Divine Mother, Her caressing love, Her uplifting grace and Her transforming power.

Spontaneous is the thought of the child in the placid infinity of Mother's mind. In that thought are saving grace and the transmission of spiritual force. It is for you, Mother's beloved child, to receive it by stilling the senses and sharpening the mind. The body is at rest. But the will of Mother is ever active in the ministry of compassion. Who can comprehend this divine mystery? Such heroic children, dedicated to Divine Mother, should come forward. For them alone are the mightier glories and marvelous achievements.
